A system built by Risk Managers, for Risk Managers

We know from speaking to our municipal customers that most risk departments that rely on spreadsheets and manual processes are frustrated. They want to change, but they assume that all the options out there are too big, too complicated, and too expensive.

ClearRisk has partnered with the Association of Municipalities of Ontario (AMO) to bring you a powerful yet accessible Claims and Risk system.

Built by risk managers for risk managers, ClearRisk gives our municipal customers the confidence to inform decision making, focus on big-picture initiatives, and optimize internal risk management programs.

So why do you still not have the Claims and Risk system you deserve?

We will be at the AMO 2022 Conference from August 14 to 17 and will be happy to explain how your municipal risk department benefits from this partnership.
