Subject: Lavigne road pit

To whom it may concern,

I am sending this email in regards to the expansion of the pit and quarry on Lavigne road. I am concerned with the increased traffic that this expansion will cause. Lavigne and Ouellette were not built for that kind of traffic. Over the course of the last few years both roads have been terrible due to the increase in hauling. Lavigne and Ouellette are the worse they have been in the past 20 years. I am just wondering who is going to flip the bill for the repair of our vehicles? It saddens me that my children aren't able to ride their bikes on the road any more due to the speed of which the dump trucks drive by. All that is seen here is money signs and little to no respect for anyone else in the community; kind of like the wet land that was filled in on Corbeil road. It is truly sad. Blasting in the pit without telling anyone demonstrates a lack of respect for people in the community, the children and animals. It is truly unfortunate that the municipality has come to be this way.

A concerned resident of east ferris
