At the Intersection of Highway 17 and Highway 94, Including 1 km west and 0.4km east  
of the intersection on Highway 17

From: Matthew Curry  
Contract Services Administrator

**Re: Ministry of Transportation Highway Construction Project 2018-5104**

Construction on the above noted project is scheduled to commence on or about January 14, 2018.

MTO Contract 2018-5104 involves improvements at the intersection of Highway 17/Highway 94/Centennial Crescent East, including installation of permanent traffic signals, profile improvements and pavement rehabilitation. Work will require localized daytime lane closures to facilitate construction of temporary detours to stage traffic while maintaining two lanes of traffic for the majority of the project. This project also includes replacement of centerline culverts throughout the limits of contract which will be completed through 24 hour continuous operations. There will also be a short duration full closure of centennial crescent east entrance with allowable closure time being a maximum of one working day with the road required to be open at the end of the working day. This closure will be communicated to all stakeholders well in advance through temporary advance notification signage.

The expected completion date for this project is October 4th, 2018.

The prime contractor is: Tera North Construction, Sudbury, Ontario

The Contract Administration will be performed both internally by the Ministry of Transportation as well as by a Consultant Contract Administration Firm which will be retained by the MTO in the Spring of 2019.
