Subject: Blue Box Transition - Population under 5000

Good afternoon

We hope that you and your community are well

Recently the Honorable Jeff Yurek Minister of the Environment, Conservation and Parks surprised the Municipal sector by indicating that Municipalities under 5000 to be excluded from transition to Full Producer Responsibility. This is a major concern to FONOM, we have attached a Resolution for your consideration to address this issue.

President Danny Whalen commented that "Stewarts produce and sell products in the small and rural communities in the Northeast, and therefore should have the Full Producer Responsibility for recycling in those communities as well."

Please let me know if you have any questions or concerns.

Mac
