**Subject:** Questions for the MNRF special council meeting

Hi Monica,

I'm not sure if the council was going to ask the following specific questions on camera to the MNRF team since we had discussed these issues in our January 12 presentation to the council.

If not would you please accept my questions to be presented on camera to the MNRF representatives. Thank you very much.

Chris Holmes

Over the past eight years the residents of East Ferris and surrounding areas have vehemently complained about the complete lack of Transparency and Accountability in the public consultation process.

This has been done through countless letters, petitions and the media and this issue has remained unanswered and unresolved.

1- Will the MNRF Land Claims and Treaties Division formally implement an online portal or other formal mechanism to **Receive, Record and Respond** to all public submissions and to create a permanent "**PUBLIC RECORD**" accessible to all citizens for review and comment?

2- Will the MNRF Land Claims and Treaties Division formally implement a **Citizens Committee** to facilitate a collaborative working relationship to discuss local concerns and create solutions that are mutually acceptable to the municipality and its thousands of residents, including the members of the AOO?

Thank You
