Jason/Monica,

As per Chris's email, I heard there was an extension to Noon on Monday, Feb. 1, 2021 to submit questions. If that is not the case, just let me know.

Question:

1. **Is it possible to schedule an ALC Update with Doug Carr and relevant stakeholders for "NORTH BAY / MATTAWA ALGONQUINS" as per the meeting held November 13, 2020 for the Township of "SOUTH ALGONQUIN"?**

<https://www.thestar.com/news/canada/2020/11/18/south-algonquin-receives-special-algonquin-land-claim-update.html>

Hosted by the Township of South Algonquin (southeast corner of Algonquin Park)

Attendees:

Doug Carr, Ontario's Chief Negotiator

Mayor Jane Dumas, Township of South Algonquin

Council and the township's clerk and treasurer Holly Hayes

C.B. Pappin, spokesperson for the Ontario Aboriginal Affairs Secretariat

Jennifer Griffin, senior negotiator with the Ontario Ministry of Natural Resource and Forestry

Cara Hernould, associate negotiator at the Ontario Ministry of Indigenous Affairs

Norm Lemke, co-chair of the municipal advisory committee, municipal focus group.

Question:

2. **Is a financial payout on the table for any or all of the Algonquin Land Claim?**

Land Claim Settlement – Nipissing First Nation

In 2013, Nipissing voted to accept an offer of \$124 million from government negotiators as a land claim settlement that reflected the validity of Nipissing's research that the reserve boundary was incorrectly surveyed after the 1850 Robinson Huron Treaty, resulting in a smaller reserve than agreed upon.

Question 3 is for Jason: Could you provide a ballpark market value (2021) for parcels 83-F1, 83-F2? OR a cost per acre of unserviced land in East Ferris Township? I would conservatively guess at \$12,000 / acre.

Thank You

See attached instructions to submit your Algonquin Land Claim questions to the upcoming East Ferris special council meeting with members of the MNRF Land Claims and Treaties Division.

Please visit our website and register your support for our community effort to get some changes made in the severely flawed ALC.
