**Re: Installation of commemorative marking within the Memorial park**

Dear Greg,

As you know, the Knights of Columbus #6664 are celebrating their 50<sup>th</sup> anniversary this year and as part of our celebration we are considering doing one of two things.

1. Installing a monument commemorating our council's 50 years of service in the community within the Park. It would be situated on the mound in behind the Memorial wall

Or

2. The other option we were considering is having the rock on the edge of the park engraved like the one at Vrebosch park.

I would like you to take note that the rock was put in it's place by the Memorial Park committee, of which the Knights were heavily involved, with thought that it would be used by the Knights in the future.

Granting authorization for either/or is a crucial process that necessitates clear communication and agreement between both parties involved. We are hoping that both the Knights and the Municipality will ensure a mutually beneficial arrangement that respects the rights and responsibilities associated with the requests in question.

We ask you to please consider both options as we await your decision. Thank you in advance.

Sincerely,

Frank Corbeil  
Financial Secretary  
Knights of Colombus #6664
